Brandstofverbruikersgids

Een gids betreffende het brandstofverbruik en de CO₂-uitstoot met gegevens voor alle modellen van nieuwe personenauto's is raadpleegbaar in elk verkooppunt. Naast de brandstofefficiëntie van een auto zijn ook het rijgedrag en andere, niet-technische factoren bepalend voor het brandstofverbruik en de CO₂-uitstoot van een auto. CO₂ is het broeikasgas dat bij de wereldwijde klimaatverandering de belangrijkste rol speelt. Vanaf 1 september 2018 worden de gegevens berekend op basis van WLTP (Worldwide Harmonised Light Vehicles Test Procedure). Sommige optionele uitrusting kunnen een verhoging van het verbruik en de CO₂-uitstoot met zich meebrengen. Zie koninklijk besluit van 5 september 2001.

* Officiële gegevens niet beschikbaar voor het geneel van varianten van de betreffende motor. Het is mogelijk dat de officiële gegevens beschikbaar zijn voor sommige van de varianten van de betreffende motor en dat in dit geval een voertuig uitgerust met de betreffende motor in de showroom wordt tentoongesteld. Officiële gegevens voor deze specifieke variant worden weergegeven op het CO₂-label naast het tentoongestelde voertuig.

CO₂ Disclaimers

De CO₂-emissie en verbruikswaarden worden alleen ter indicatieve titel gegeven. Het is mogelijk dat de waarden die zijn opgegeven voor een specifieke configuratie van een voertuig verschillen van de waarden die worden weergegeven op het gelijkvormigheidsattest bij aflevering van het voertuig. Bovendien kan dit eventuele verschil de krachtens de toepasselijke wetgeving (sociaal, fiscaal, enz.) verschuldigde bedragen mogelijks beïnvloeden.

* Officiële gegevens niet beschikbaar voor het geheel van varianten van de betreffende motor. Het is mogelijk dat de officiële gegevens beschikbaar zijn voor sommige van de varianten van de betreffende motor en dat in dit geval een voertuig uitgerust met de betreffende motor in de showroom wordt tentoongesteld. Officiële gegevens voor deze specifieke variant worden weergegeven op het CO₂-label naast het tentoongestelde voertuig.

Officiële gegevens voor deze specifieke variant worden weergegeven op het CO₂-label naast het tentoongestelde voertuig.
